

INFRA-ASIA

PROJECT PORTAL

BRIDGING ASIA'S INFRASTRUCTURE PROJECTS

EXPLORE. CONNECT. GROW.

EXPLORE ASIA'S INFRASTRUCTURE OPPORTUNITIES

The InfraAsia Project Portal is a virtual marketplace that improves the visibility of Asia's upcoming infrastructure projects and connects these projects to best-fit solutions and investors.

The portal is developed by Infrastructure Asia (InfraAsia). InfraAsia supports the portal through deep engagement with project owners to understand their needs and provides them access to InfraAsia's network of more than 600 pre-curated solution providers.

CONNECTING THE INFRASTRUCTURE ECOSYSTEM

MAIN CHALLENGES FACED TODAY

Low awareness on best-fit solutions available, leading to mismatch of partners

Lack of impactful connections in bringing together complementary experts, leading to missed opportunities

Poor visibility in Asia's upcoming project pipeline

THE INFRAASIA PROJECT PORTAL SOLVES THESE CHALLENGES FOR:

PUBLIC SECTOR AGENCIES

Initiators, planners and executors of infrastructure projects

Quickly kickstart planning activities by showcasing projects and accessing solutions on a one-stop platform

MULTILATERAL DEVELOPMENT BANKS

Experts on project structuring, management and investment

Easily browse and confidently support an exciting pipeline of viable projects

PRIVATE SECTOR COMPANIES

Providers of technical, legal advisory, technology and contracting solutions

Easily discover a variety of project opportunities to provide expert solutions

FINANCIAL INSTITUTIONS

Experts on financial solutions, like investment funds and asset management

Leverage on Singapore's position as a financial hub to finance and provide advisory for projects

GROW THE REGION'S INFRASTRUCTURE POTENTIAL

The InfraAsia Project Portal aims to enhance the value of Asia's Infrastructure projects for both project owners and solution providers by ensuring:

RELEVANCE

Projects are curated based on their potential for economic and social growth in Asia

NEUTRALITY

Projects and solution providers are published after a fair and unbiased review process

INCLUSIVITY

Open to infrastructure projects of all stages and sizes, and international solution providers

SECURITY

Only verified accounts can view complete project information, with InfraAsia facilitating new communications

MAKING INFRASTRUCTURE HAPPEN

Ready to catalyse your infrastructure project's journey? Follow the steps below to get started.

ANOTHER INITIATIVE BY:

Infrastructure Asia is a project facilitation office that supports Asia's social and economic growth through infrastructure development. InfraAsia achieves that by catalysing project development, financing, and execution opportunities to meet the region's growing needs. Through harnessing the collective capabilities of Singapore-based companies, InfraAsia enables good-fit solutions across the infrastructure ecosystem to explore project opportunities and facilitate private capital access into sustainable infrastructure projects in Asia.
